## Pop. and Emp. Data

### % Hispanic

- 0% - 1.86%
- 1.87% - 3.43%
- 3.44% - 5.7%
- 5.71% - 11.79%
- 11.8% - 90.51%

Quintiles are Used

Using ESRI's model-based estimates, this shows, as of 2008, where the heaviest concentrations of the Hispanic population occur. As can be seen, Hispanics are heavily concentrated in Gwinnett, Hall, Cobb and the I-85 corridor in DeKalb. Although Forsyth has added significant numbers of Hispanics this decade, the relative share of Hispanics is still low when compared to its neighbors.
